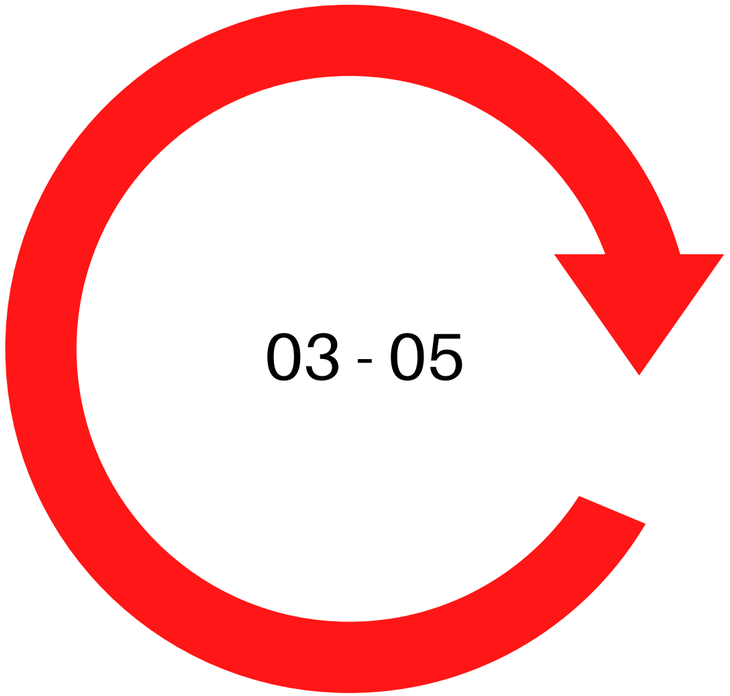
The Stages of a Chatbot Development

Chatbotku by Robomy



01	ROLE	Determine the role of the bot.
02	CHANNEL	Where do we want to publish the bot, like website, WhatsApp etc.
03	DIALOG FLOW	Design the dialog flows and story board. Converting PBL sheet to dialog flows.
04	DEVELOPMENT	Software development, NLP integration, additional data collection and internal testing
05	TEST AND DEPLOY	User testing, final revisions and deployment

TIME TO SPEND
